

Global Mobility

Version 241016

SlaterConsult has more than 10 years combined experience in sending the right person, at the right time to the right location to pursue a business opportunity or fill a critical position on manager or specialist level.

We know that it is challenging to involve and guide the employee and an accompanying family on a personal level, yet is critical for the assignment success that everyone in the family thrive abroad.

Customized to your needs

SlaterConsult offers end to end full process support for international transfers of newly hired or expatriated employees or help preparing and carrying out single steps in the Global Mobility process, such as:

- Managing the entire process end-to-end
- Single steps in the process if you only need support for parts of the international transfer
- Advice on Global Mobility topics.

Workflows

Assignment Guidance

The provided guidance is based on your company's strategy and needs

Compliance topics

SlaterConsult helps you handle immigration, tax, social security and insurance topics

Family Coaching

You receive professional advice for accompanying spouses on career possibilities and work-life balance abroad

Cultural Awareness Training

Enable your relocating employees to communicate and collaborate culturally wise and equip your delegated managers for global leadership.

Relocation & Settling-in

SlaterConsult coordinates support for accommodation, school and child care, moving of household goods and other practicalities.

On-boarding

SlaterConsult offers on-boarding plans and team events for the benefit of your company and for the candidate's experience of job satisfaction.

Repatriation

When it is time to return home or continue to the next assignment, SlaterConsult supports the transfer of the employee and accompanying family, leaving the best employer branding signature possible.

Qualified and professional support

With structured process coordination and strong collaboration partners we take you through the challenges of each workflow, until transfer has taken place safely.
